

GF-Slider System

GF-Slider System

GFM is proud to present the GF-Slider System. It's available in 4 different lengths but the modular design allows you to swap the precision rails, depending on the size required at the time.

The rails are drilled with 3/8" threaded holes spaced 1" apart allowing a range of standard industry accessories to be attached. It mounts on either Euro-adapter or Mitchell as well as having a number of end mounts to choose from.

- GF-Slider including:
- 2 precision rails
 - 2 end mounts with 360° "tooth system"
 - tracking carriage for Mitchell or Bowl mount

AL-2113 100 mm bowl

AL-2114 150 mm bowl

AL-2155 Mitchell Plate

AL-2165 Combi-rig Tube or Double Euro-adapter

The tracking carriage comes with the low height adjuster but additional adjusters are available should the height of the camera mount need to be extended.

AL-2598 Height adjusters low

AL-2597 Height adjusters medium

AL-2596 Height adjusters high

AL-2595 Height adjusters extra high

Depending on budget or requirement we offer a choice of mounts to connect the GF-Slider directly on to a Mitchell or Euro-adapter type dolly mount. The Mitchell is available with or without a pan-bearing.

AL-2570 Mitchell mount

AL-2571 Mitchell mount with pan bearing

AL-2572 Mitchell mount female with pan bearing

AL-2580 Euro-adapter mount with pan bearing

The side plates combine with the rail mounts to provide, on the one hand, fast horizontal repositioning along the length of the rail and secondly another method to adjust height and therefore clearance of the camera head between the tracking carriage and rail mount.

AL-2585 Side plates for horizontal positioning large

AL-2586 Side plates for horizontal positioning medium

AL-2587 Side plates for horizontal positioning small

The standard end mount is machined with 360 degree "tooth system" allowing for the connection of various scaffold tube and levelling leg mounts. It's also got a number of 3/8" threaded holes for connecting adapters etc.

Lighting stand adapter (28mm)

Scaffold tube adapter

Leveling legs with pads

As an alternative option we offer the plain end mount for use dolly slider mode. It too has a number of 3/8" threaded holes for connecting adapters etc.

Scaffold tube double mount (adjustable width)

Standard end mount & plain end mount

GF-Combi Rig tube for high and low modes

Horizontal & vertical counterweight rod
